

## Why Net Play?

Net play has a whole host of benefits. Our net climbing products help develop spatial awareness, cognitive & motor skills, as well as aiding in physical development.

## Fun & Imaginative

Net play encourages use of imagination. There are so many ways to play and directions to take. From being a super hero to racing to a certain point, our net structures are designed to be fun for all.

## Dynamic & Dramatic

Exercise is very important for physical and mental development, especially for children. Our net structures provide so many ways to climb, making it one of the best ways to get a full-body workout while developing muscle strength, hand and eye coordination and confidence.

## Individual & Iconic

Our standard products can be combined together to create a play area suited to your needs. We can create fully customised play areas and structures, just the way you want it.

Our expertise and experience means we can take concepts from a drawing through to real-life installations. Before looking at the standard products, let's take a look at some iconic installations from around the world, which were custom designed and manufactured.

Let us help you on your journey to creating the dream outdoor space. Whatever your playground needs, speak to one of our experts today.

## We Make Bridges & Tunnels

Looking for a tunnel bridge, a suspension bridge or something to bridge the gap?

We have the range and the ability to customise what you need. Bridges and tunnels are ideal for connecting playground structures and provide a rich play experience through physical movement and fantasy/role play.

Rope Bridge

Burma Bridge

Rope Tunnel

Timber Bridge

Fendex Bridge

Clatter Bridge

## We Make Scramble Nets

Scramble nets are challenging, great for unstructured play and are superb fun for people of all ages.

These are exceptional pieces of equipment which can support the development of children, all through play. They are ideal to act as entry points into other structures, connecting units or simply something which adds a 'WOW' factor.

## We Make Play Trails

Give your playground the feeling of excitement, adventure and exploration.

Having an inviting play area is crucial to encourage children to play. Our range and expertise in design will ensure that your trail is designed to your specification and offers children the opportunity to learn and develop.

## Our Philosophy

We understand and appreciate that no two customers have the same requirements, which is why our core philosophy is based around individuality.

Our Design and Technical Team are on hand to advise communities, designers, engineers and architects on how to design your own rope playground net or bridge.

## Materials

Customers can rely on our expert knowledge in rope, connector and end fittings to find the best solution for their playground.

The versatility of our range of end fittings is key in finding the best most safe and secure applications for your playground. Products can be personalised by selecting rope and connector colours to tie the net into the playground, landscape or environment.

## Quality Assured

We take pride only in offering the highest quality of materials, guaranteeing strength, safety, finish, colour and UV stability.

We aim to supply a playground which several generations of children can enjoy. Rope nets are a design classic in the playground.

## Manufacturing & Installation

Our rope nets are manufactured in-house, at our factories using the best equipment, tools and people.

With a proud workforce, some of the most sophisticated technology in the industry and embracing sustainable practices, we have manufactured and delivered some of the best products for customers all over the world.

## Design

Our Design Team collaborates with operations, technical, production and marketing in developing components, custom nets, and freestanding structures, either designed to EN1176 or certified by TUV SUD.

Both Design and Technical Teams are fully trained in the latest software and have a wealth of experience. Get in touch today to talk about your playspace project.

## Contact Us
